

NovaChip Technologies - Q2 2026 Investor Update

Ticker: NOVA

Quarter: Q2 2026

Published: 2026-07-24

Synthetic training document - fictional company and figures.

Investment Snapshot

Metric

Q2 2026

Revenue

\$1.22 billion

Adjusted EPS

\$1.41

Operating metric

56.1%

Guidance status

Lowered

2026 Outlook

Previous: 2026 revenue of \$5.4-\$5.6 billion and adjusted gross margin of approximately 58%

Current: 2026 revenue of \$5.0-\$5.2 billion and adjusted gross margin of 55%-56%

Management Focus Areas

- Export-license timing, a delayed hyperscale qualification cycle, and a less favorable second-half product mix
- Capital allocation remains disciplined.
- Management expects to provide another full-year update with Q3 results.

Forward-Looking Considerations

Demand remains structurally healthy, but shipment timing and mix create near-term earnings risk.
