Item 2. Management's Discussion and Analysis During Q2 2026, Synthetic Compute Company 01 generated revenue of \$1.22 billion. Management reviewed full-year expectations in light of current operating conditions. Forward-Looking Information The prior company outlook was 2026 revenue of \$5.4-\$5.6 billion and adjusted gross margin of approximately 58%. The current outlook is 2026 revenue of \$5.0-\$5.2 billion and adjusted gross margin of 55%-56%. The change is associated with export-license timing, a delayed hyperscale qualification cycle, and a less favorable second-half product mix.

Risk Disclosures Actual results could differ materially due to customer timing, financing conditions, supply availability, competitive dynamics, macroeconomic conditions, regulatory developments, and execution risk.
